Since this document is confidential and proprietary to Paradis International College, third parties are not entitled to rely on it in any way. The present document has been issued in English.

	AUTHORS	APPROVED BY
Name	DUMITRASCU GABRIELA ELENA	ALBU OANA
Title	School Doctor	Director of College

Paradis International College recognises its responsibility to provide first-aid and will ensure that staff, pupils and any visitors while on site, have access to adequate care, facilities and materials at all times during the working day.

First Aiders

- The College has a number of teaching and non-teaching staff who are trained
- First Aiders to enable first-aid to be administered without delay. These First Aiders hold a recognised certificate in first-aid, which is regularly refreshed and updated. This certificate is unnecessary for the school doctor and medical assistant.
- Any trip to a remote location should have at least one trained First Aider among its supervising staff, unless adequate first-aid is provided on site.

First-aid boxes

- First-aid boxes can be found in the following locations in school:
- 1. Medical Room Basement
- 2. Teachers' Room 1st, 2nd, 3rd, 4th Floors
- 3. Biology Lab, Chemistry Lab, Physics Labs, Tehnical Creativity Lab 5^{th} Floor , and Sports Hall 6^{th} Floor
 - The contents of each first-aid box are listed in the box and reflect the perceived need for the location. Back-up supplies of first-aid equipment are to be obtained from a cupboard in the Medical Room. The school doctor conducts regular checks of the first-aid boxes and replenishes stocks. If First Aiders also find that supplies are running low, it is their responsibility to inform the school doctor.

Traveling first-aid kits

• In the Medical Room there are first-aid kits available to be taken to outdoor activities/events. A list of contents is to be found with each kit. Any first-aid items used should be replaced <u>immediately</u> on return from the trip. Any medicines should be checked before departure and replaced or replenished as necessary. Each first-aid kit has a settlement notebook in which the person providing first-aid has to write the date of use, the supplies that were taken or used and the quantity.

Procedures in case of accidents (in detail "Asigurarea serviciilor medicale de urgență")

- In the first instance, an injury will be assessed as to <u>how serious it is</u>. This assessment can be carried out by any member of staff. If the injury is as a result of a fall from height, a knock to the head and results in a heavily bleeding wound or an abnormal swelling or any other kind of medical situation, then the injured person should be taken to the Medical Room, MD, medical assistant, or a First Aider should be called.
- The school doctor will decide if emergency services should be called. If the school doctor is not on the site, any first aider or not will call 112, if necessary.
- Reception will:
 - o Call for ambulance if school doctor or First Aider has not done so;
 - o Inform or send message back to First Aider that ambulance is on its way;
 - o Inform parents;
 - o Inform the Headmaster;
 - Keep in touch with the emergency services during the procedure.

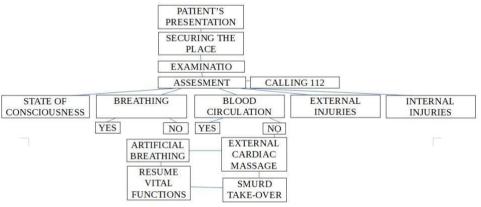

- If a pupil requires an ambulance trip to the hospital, a member of staff will travel with the student and parents will meet their child at the hospital and relieve the member of staff's duty.
- If the injury is not serious enough to require an ambulance, parents or another emergency contact should be contacted to take the student to a medical unit. At all stages there must be no delay.
- If the accident happens during a trip, the trip emergency procedures should be followed.

First-aid code of Practice

- For serious injuries, whenever possible, the school doctor, as the most experienced First Aider, and/or medical assistant should be called on site, or the student taken to them in the Medical Office.
- For any accident, the First Aiders should treat the injury to his/her best knowledge, according to procedures learned in the First Aid Course, and take any measures he/she considers appropriate to ensure the safety of all those present at the scene. If in doubt he/she should seek the help of other First Aiders or the school's doctor. For serious injuries that require the attention of more specialized staff or hospitalization, he/she should make arrangements for the call of emergency services.
- After applying first-aid, the First Aider should ensure that the accident report is completed and delivered to the Medical Office. The school doctor will review the form.
- For any accidents caused by environment, maintenance, school doctor and Director of College should be informed immediately.

Immediate first-aid by closest person

- Immediate Treatment Steps:
 - o Stay calm;
 - Send for help;
 - o If the patient has fainted, leave them on the floor and raise their legs;
 - o If the patient is struggling to breathe, sit them on a chair with their hands on their hips and encourage breathing in through the nose and out through the mouth, if the patient is not responding, the patient should be placed in a safe position;
 - o If the patient is having a seizure, move any hard objects away from them and put the patient in a safe position;

o Reassure patients and observers until First Aider arrives.

Medication as first-aid

- The general principle at all times is NOT to dispense medication, only to render first-aid. In school, the only person allowed to administer medication in any situation is the School Doctor (only with Parental Guidance), unless a special arrangement has been made with the agreement of school, staff members and parents.
- During trips, the staff member responsible for first-aid will also be responsible for the administration of medication, and he/she should follow the instructions. No students should self-medicate without prior discussion with the staff members supervising the trip.
